1. Accuracy of the neural network constructed for 25, 50, 75 and 100 epochs. (With learning rate = 0.1 and number of folds = 10)

2. Accuracy of the neural network constructed with number of folds as 5, 10, 15, 20 and 25. (With learning rate = 0.1 and number of epochs = 50)

3. ROC curve for the neural network constructed with the following parameters:
(With learning rate = 0.1, number of epochs = 50, number of folds = 10)
